EXPERIENCE

Software Engineer 1

MAQ Software

July 2023 – Present, Noida, Uttar Pradesh

- Orchestrated the development of a chatbot using Power Virtual Agent and OpenAI, reducing customer query resolution time by 30% and markedly improving user satisfaction.
- Spearheaded data analysis initiatives, creating Power BI Reports and Dashboards that bolstered data-driven decision-making by 25% and overall business efficiency.
- Optimized DAX Queries in Power BI for a 20% faster report processing time and enhanced data retrieval efficiency. Also, implemented Anomaly Detection for improved predictive analytics and informed business strategies.
- Developed WorkspaceHub using Node.js, React, SQL, and APIs to streamline Power BI report management, enhancing data efficiency and business operations.

Associate Software Engineer

MAQ Software

January 2023 – July 2023, Noida, Uttar Pradesh

- Led the development of a Web App with React, Node, Tailwind CSS and SharePoint Excel, improving data accessibility and engagement by 20% through integrated OpenAI.
- Created interactive and dynamic Power BI reports, leading to a 30% improvement in data-driven decision-making processes, Optimized SQL queries in SSMS, increasing data handling efficiency by 20%.
- Utilized Power BI, Tabular Editor, and data cleaning techniques to optimize data visualization, modeling, and analysis for informed decision-making.
- Managed data pipelines using DAX, MySQL, SQL Server, and Azure DevOps, ensuring robust data management and integrity.

PROJECTS

Real Estate

<https://t.ly/dCEuE> • March 2022 – April 2022

- Developed a comprehensive Real Estate application using JavaScript, HTML, CSS, and API integration, providing users with intuitive property search functionalities and seamless user experience.
- Implemented strategies to enhance property listing and content management efficiency, leading to improved user accessibility and streamlined operations.
- Implemented advanced search features, such as location-based filtering and property type categorization, enhancing user convenience and search accuracy.

Pixocreator App

<https://t.ly/PwHPz> • January 2022 – February 2022

- Created PixoCreator using React.js, Node.js, Tailwind CSS, and Sanity, providing an intuitive and efficient tool for content creators.
- Implemented features such as drag-and-drop functionality for pictures and real-time collaboration, enhancing user experience and achieved streamlining content creation.
- Planned future enhancements for PixoCreator, including AI-powered content suggestions and advanced analytics, to further improve user productivity and content quality.

EDUCATION

Master in Computer Application (MCA)

National Institute Of Technology, Jamshedpur • Jharkhand • 2023 • (3.07 GPA)

Bachelor in Computer Application (BCA)

Bhola Bhai Patel College of Computer Studies, (KSV) • Gandhinagar, Gujarat • 2019 • (3.46 GPA)

SKILLS

React, Node, JavaScript, Tailwind CSS, HTML, CSS, Java, GitHub Copilot, Microsoft Fabric, Power BI, OpenAI / REST API, Power Virtual Agent, Prompt Engineering, VS Code Copilot, DAX, MySQL, SQL Server, Tabular Editor, Excel, Azure DevOps, Data Cleaning, Data Modelling, Data Visualization, Data Analysis.
